

Join us... to explore the future of communications

**Services, Enablers and Architectures
Supporting Business Models for a New Open World**

**Sofitel-Pullman Hotel - Bordeaux, France
20-23 October 2008**

IN COOPERATION WITH & SUPPORTED BY

SPONSORED BY

What is ICIN?

ICIN is a world leading international conference dealing with the future of **services in a fixed line, mobile, video and internet world**.

ICIN 2008 will provide a unique opportunity for delegates to share, discuss and understand the latest innovative ideas currently driving changes in the communications industry.

ICIN 2008 will highlight the challenges and opportunities resulting from the convergence of services and networks which will change user expectations and experiences.

ICIN 2008 offers a wide range of topics related to **Services, Enablers and Architectures, Supporting Business Models for a New Open World**.

Technical Sessions:

- Lessons Learnt from Live Deployments
- Business Models 1 & 2
- Social Networking
- Policy Control Supporting Services
- IPTV & Content Delivery
- P2P & VoIP
- Service Enablers
- Identity Management
- User Interfaces
- Innovation in Services
- OSS/BSS
- The Marriage of IMS and Web 2.0
- Measuring the User Experience
- Open Models & Third Parties
- Service Composition
- Service Development Platforms
- Session Continuity - Services on the Move

Monday 20 October - Tutorials

09:00 - Tutorial 1

Delivering Services Over IMS – It's Showtime, Folks!
Ulf Olsson (Ericsson, SE)

IMS was designed to be a multimedia platform, but it is becoming increasingly clear that the "M" could just as easily stand for Multiservice. Expanding on this subject, this tutorial will provide an overview of how the mechanisms in IMS can be used to deliver interoperable person-to-person communications with global reach, as well as innovative, differentiating services. We will explore how various IMS features can be used to steer routing and delivery, both in the network and the device(s). Completing the picture, we will discuss how service components can be combined and exposed to higher layers, linking into web-oriented toolsets and execution environments.

09:00 - Tutorial 2

Identity Management in the Service Delivery Environment – Enabling Secure Web 2.0 and 3rd Party Based Application
Anders Lundqvist (Oracle Inc., SE)

Web 2.0 is changing the world of applications on the web and in the Telco area. Web 2.0 and 3rd party applications in the Telco world have additional requirements to enable billing, hinder spam, fraud etc. Identity management therefore become crucial, launching these new applications. This tutorial will give a brief overview of Identity Management and more specific its usage in a Web 2.0/3rd Party application world.

14:00 - Tutorial 3

Cross-Fertilization of IMS and IPTV Services over NGN
Niklas Blum (FOKUS, DE) and Christian Riede (FOKUS, DE)

Multimedia and Triple Play (Data, IPTV, VoIP) services are more and more characterized by convergence of fixed and mobile networks towards NGN and All-IP infrastructures. Within this scope, the IP Multimedia Subsystem (IMS) represents a standardized architecture for access network agnostic and secure service provisioning and makes VoIP, well known Internet communication features like Instant Messaging (IM) and Rich Presence available from every location taking QoS, AAA and standardized service delivery into account.

This tutorial gives an overview about NGN service drivers, NGN concepts and the evolution from IN to IMS. It goes in detail with standardization efforts in the sphere of IMS, addresses its enablers and potentials as well as current efforts in the field of NGN-featured IPTV solutions.

14:00 - Tutorial 4

Security Aspects and Mechanisms of the Identity Management
Igor Faynberg (Alcatel-Lucent, US) and Hui Lan Lu (Alcatel-Lucent, US)

This tutorial is self-contained; its major goal is to demystify the complex subject of network security. Specifically, the topics of the IMS security and Identity Management are addressed in detail. The tutorial explains the cryptography, PKI, and authentication protocols, with the IMS security as a case study. Finally, the tutorial addresses the Identity Management and Service Federation issues using the most-recent real-life examples from the IMS and non-IMS applications.

Sponsored Seminars

09:00 and repeated again in the afternoon session at 14:00 - (Sponsored by NeuStar)

ENUM in Action

Adrian Dodd (GSMA, UK) and Richard Wilhelm (NeuStar, US)

As an addressing mechanism, ENUM has been a key catalyzing technology in the convergence of IP networks and telephony applications. This tutorial gives an overview of ENUM, a presentation of different ENUM architectures, a discussion of a variety of ENUM applications, and provides a detailed review of the GSMA's Number Resolution Service (NRS) operator ENUM service and its applicability to the acceleration of next-generation communication service deployments.

Keynote Speakers

Agustin Núñez-Castaín, ES

Handsets and Services Innovation Director at Telefónica España

Mr. Núñez-Castaín has been with Telefónica España for nearly 18 years. From 1990 until 1999, as COO of Telefónica Sistemas, and in 2000 he joined Telefónica Móviles as Director of the Platforms and Services division. Since January 2006 until recently he led the Handsets and Services group, and now he is responsible of the Innovation and Product Management team. Prior to Telefónica, Mr. Núñez-Castaín was an aerospace manager at Entel and a spacecraft operation engineer at the European Space Agency (ESA). He is a supporter of open environments, being the main driver of "Open MovilForum" (<http://open.movilforum.com>)-- the initiative inside Telefónica España to generate a cooperative environment with third parties.

Simon Bureau, KR

CEO of Vectis Corporation, Inc.

Simon Bureau founded Vectis in Canada in 1998 and set up the company's permanent Korea office in 2001. He is CEO and serves as principal consultant on most projects. Simon has witnessed major developments in the Korean market first-hand, having worked and lived in Korea on different occasions since 1986. Simon plans to discuss new business models being implemented in Korea including how operators are positioning themselves in the content value chain and the corresponding business models that they design and apply.

Dr. Kou Miyake, JP

Director of NTT Service Integration Laboratories

Dr. Kou Miyake received B.S. and M.S. degrees in mathematics and a Dr. Eng. degree from Tohoku University, Sendai, Japan. Since joining the NTT Electrical Communication Laboratories, he has been active in network design and traffic engineering for satellite communications networks, packet-switched networks, and broadband communication networks. He has also been responsible for the development of the Next Generation Network architecture and system engineering in NTT R&D Labs. He was the president of NTT Data Intelli-link Corporation.

He is currently the director of the NTT Service Integration Laboratories. He had been an active participant in ITU-T Study Group 13 and he was a board member of Multi-service switching Forum (MSF).

An additional Keynote Speaker will be announced when confirmed.

Sponsorship Opportunities

ICIN 2008 also gives you an unparalleled opportunity to network and increase the visibility of your organisation. As an event sponsor you will benefit from a personal relationship with top level delegates and speakers in a relaxed environment.

Some of the sponsorship opportunities available include:

- Receptions
- Lunches and Coffee Breaks
- Delegate Bags
- Badges and Lanyards

The impact of your presence and the strength of the relationships forged during the event will continue to repay long after the event.

For a complete list of sponsorship opportunities, please contact Roger Hinkson, Sales Manager.

Phone: +44 7771 893022

Email: icin-sponsor@neustar.biz

http://www.icin.biz/sponsors/become_sponsor.html

Who Should Attend?

- Operators involved in transforming their networks and business models into the world of internet based services and web 2.0.
- Vendors with innovative products and services who want to address new markets and new partnerships.
- Academics who are interested in applying their ideas to real-world cutting edge scenarios.
- Regulators and consultants who would like to keep up with the latest developments in the communications industry.
- Anyone wanting to network with the people in the industry who are leading the development of the latest products and services.

Why Attend?

- Attend presentations of the highest quality papers which have been refereed by industry experts.
- Exposure to ideas from around the world.
- Interact with operators, academics and vendors working with the latest technology.
- Develop personal relationships with the leading technical minds in the industry.

Key Features that Distinguish ICIN are:

- All papers are peer reviewed, thus guaranteeing highest quality
- Focus on the service layer
- Full papers are provided not just presentations
- Global coverage of speakers, particularly strong representation from Asia
- Active participation from operators – fixed line, mobile, broadband, and video
- Results from R&D organisation in operators, academia and government labs
- No marketing pitches – a hype-free zone
- Brings together fixed, mobile, and internet communities

"Excellent conference with interesting mix of speakers from around the globe"

Analyst - Informa Telecoms and Media

"Well done, the best conference I have ever attended to. I will be here next year & years to come. Keep on the good job"

Senior Consultant - Tata Consultancy Services

"The right blend of understanding and practice"

Senior Engineer - Ericsson

Who Attended ICIN 2007

ICIN 2007 was attended by 67 organisations including operators, equipment and software vendors, IT vendors, system integrators, and universities from 23 countries around the world. Among the attendee titles were CTO, Company Director, Research Professor, Business Development Manager, Marketing Manager and Innovation Manager.

ICIN 2007 Attendee Companies Included:

OPERATORS

AT&T
Bouygues Telecom
BT
Deutsche Telekom
KT Infra Laboratory
NTT
Orange Labs
Proximus
Siminn
TDC Cable TV
Telecom Italia
Telefonica Moviles
Espana
Telekom Austria
Telekom Srbija
Telenor
Vodafone Group

ACADEMIC/ GOVERNMENT R&D

Aoyama Gakuin Univ
ENST
ETRI
Fraunhofer FOKUS
Heinrich-Hertz-Institute
INT
ITRI
NICT
Oslo University
Shibaura Institute of Technology
Soka University
Stuttgart University
University of Genoa
University of Ljubljana
University of The Witwatersrand
Warsaw University of Technology
Waseda University

INDUSTRY ASSOCIATIONS

Ficora
ITP
ÖFEG
OPLAN Foundation

SYSTEMS INTEGRATORS

BEA Systems
Hewlett-Packard
Sun Microsystems
T-Systems
Tata Consultancy Services

CONSULTANTS

Adera
Discovery Consultancy Association
Telemates

EQUIPMENT /SOFT- WARE VENDORS

Aepona
Alcatel-Lucent
Arvato Finance Services
Cisco Systems
Comarch
Ericpol Telecom
Ericsson
Huawei Technologies
Intel Corporation
Iskratel
Linus
NEC
Neotiq
NeuStar
Nokia Siemens Networks
Nortel Networks
Personeta
Telcordia
Telesafe
Ubisafe

ICIN 2007 Attendees by Country:

Austria	Italy	Spain
Belgium	Japan	Sweden
China	Korea	Switzerland
Denmark	Norway	Taiwan
Finland	Poland	The Netherlands
France	Serbia	United Kingdom
Germany	Slovenia	United States
Iceland	South Africa	

Attendee % by Industry

MEETING AT A GLANCE ICIN 2008 Schedule

Monday 20 October – *Tutorials*

07:30 Registration Open
09:00 Start morning Tutorials
10:30 Coffee Break
11:00 Continue morning Tutorials
12:30 Lunch
14:00 Start afternoon Tutorials
15:30 Coffee Break
16:00 Continue afternoon Tutorials
17:30 Session End – Registration Closed

Wednesday 22 October – *Day 2*

07:30 Registration Open
08:30 Keynote Panel Session
10:00 Coffee Break
10:30 Technical Sessions (4A & 4B)
12:00 Lunch
13:30 Technical Sessions (5A & 5B)
15:00 Coffee Break
15:30 Technical Sessions (6A & 6B)
17:00 Session End – Registration Closed
20:00 Gala Dinner – Sponsored by Alcatel-Lucent

Tuesday 21 October – *Day 1*

07:30 Registration Open
08:30 Opening Session
09:00 Keynote Session
11:00 Coffee Break
11:30 Technical Sessions (1A & 1B)
13:00 Lunch
14:30 Technical Sessions (2A & 2B)
16:00 Coffee Break
16:30 Technical Sessions (3A & 3B)
18:00 Session End – Registration Closed

Thursday 23 October – *Day 3*

07:30 Registration Open
08:30 Technical Sessions (7A & 7B)
10:00 Coffee Break
10:30 Technical Sessions (8A & 8B)
12:00 Lunch
13:30 Technical Sessions (9A & 9B)
15:00 Closing Session
15:30 Session End – Registration Closed

Gala Dinner - Wednesday 22 October at 20:00

ICIN traditionally gives delegates a flavour of the Bordeaux wine and cooking region. A special banquet dinner will be organised on Wednesday 22 October. The Gala Dinner is included in the delegates' fee. However, pending availability, you may purchase additional tickets at the registration desk for €75 (VAT incl.).

Diamond Sponsor

Alcatel·Lucent 

Advance Programme ICIN 2008

Tuesday 21 October (Day 1)

08:30 **Opening Session**

Chairman: Stefan Uellner (T-Systems, DE)

09:00 **Keynote Session**

Chairman: Stefan Uellner (T-Systems, DE)
Stuart Sharrock (Telemates, UK)

Keynote Speakers:

Simon Bureau (Vectis Corporation, KR)
Kou Miyake (NTT, JP)
Agustin Núñez-Castaín (Telefónica España, ES)

11:00 **Coffee Break**

11:30 **Session 1A**
Lessons Learnt from Live Deployments

Chairman: A.C. (Chet) McQuaide (AT&T, US)

Feedbacks from a Large-Scale Pre-IMS Deployment

Stéphane Tuffin (Orange Labs, FR)

The OSIP Experience

Michel Crowther (BT, UK)

Telecommunications – IT Convergence Services: Lessons Learned and Business Model

Yu-jin Huh (KT Corporation, KR)

11:30 **Session 1B**
Business Models 1

Chairman: Horst Thieme (IBM, DE)

Federation of User Data for Multi-Domain Blended Services

John O'Connell (Hewlett-Packard, FR)

Practical Quantitative Approach for Estimating Business Contribution of Enablers and Service Platforms

Josip Zoric (Telenor R&I, NO)

Towards Platform Models for Mobile Operators

Pieter Ballon (Vrije Universiteit Brussel, BE)

The Name of the Game - a Soft-Client Approach for Fixed-Mobile Convergence

Aljaz Tomaz (Iskotel, SI)

13:00 **Lunch Break**

14:30 **Session 2A**
Social Networking

Chairman: Roberto Minerva (Telecom Italia Lab, IT)

Advanced Customer Information-Sharing Platform for Service Convergence and Social Network Services

Sungcheol Park (KT, KR)

Fixed-Mobile Hybrid Mashups: Experiences and Lessons on Applying the REST Software Architecture Principles to Exposing Mobile Operator Services

Sami Mäkeläinen (Nokia Siemens Networks, FI)

Social Communications: Applications that Take Advantage of Your Real Social Network

Johann Daigremont (Alcatel-Lucent, FR)

14:30 **Session 2B**
Policy Control Supporting Services

Chairman: Max Michel (Orange Labs, FR)

Policy Control for User QoE in FMC Networks

Sonsoles Fernández Villarrubia (Telefonica I+D, ES)

SPICE Access Control Architecture Capable of Minimizing Infrastructure Components

Jean-Pierre le Rouzic (Orange Labs, FR)

Dynamic Policy Adaptation in the NGN Service Layer

Venkatesh Seshasayee (Wipro Technologies, IN)

16:00 **Coffee Break**

16:30 **Session 3A**
Business Models 2

Chairman: Dan Fahrman (Ericsson, SE)

Are Partnerships Real Opportunities for Telecommunication Operators to Increase Revenues?

Isabelle Korthals (Deutsche Telekom Laboratories, DE)

The Broker - A Solution for Global Mobile Services

Yrjo Raivio (Nokia Siemens Networks, FI)

Money from Networking in a Web 2.0 World

Paul Gainham (Juniper Networks, UK)

Impact of Advanced Wireless Services on the Network Infrastructure and Devices

Pradeep Samudra (Tellabs, US)

16:30

Session 3B IPTV & Content Delivery

Chairman: Ove Faergemand (YouSee, DK)

Peer-AHNA : An Adaptive Network Architecture for IPTV Services

Nathalie Omnès (Devoteam, FR)

Context Aware Content Sharing and Casting

Boris Moltchanov (Telecom Italia, IT)

Using Video Mashup to Deliver Personalized and Added-Value Video Services

Eric Julien (Hewlett-Packard, FR)

Interactive Media Session Establishment without Proxies

Brian Rosen (NeuStar, US)

18:00

Session End

Wednesday 22 October (Day 2)

08:30

Panel Session Opening Interfaces – Impacts on Telco Business Models and Interconnection for IP Services

Moderator: Mac Taylor (Morian Group, SE)

Panelists:

Simon Bureau (Vectis Corporation, KR)

Tom Mazzone (Telcordia, US)

Roberto Minerva (Telecom Italia Lab, IT)

Agustin Núñez-Castaín (Telefónica España, ES)

10:00

Coffee Break

10:30

Session 4A P2P & VoIP

Chairwoman: Hui-Lan Lu (Alcatel-Lucent, US)

Frequently Asked Questions about Carrier Grade Peer-to-Peer Voice

Johan de Vriendt (Alcatel-Lucent Bell N.V., BE)

MBD Security Framework for Pro-Active Security Monitoring

Patrick Battistello (Orange Labs, FR)

Secure ENUM: Enabler for a Safer Transition to the IP World

Paolo de Lutiis (Telecom Italia S.p.A., IT)

The Two Cultures of VoIP

Jon Peterson (NeuStar, US)

10:30

Session 4B Service Enablers

Chairman: Bernard Vilain (Alcatel-Lucent, FR)

Presence with Avatar for Web 2.0-IMS Services Using REST Interface

Naoki Takaya (NTT, JP)

Presence Zones for Contextual Location Based Services

Sima Nadler (IBM Research Lab, IL)

Service Implications in an IMS Group Management Enabler

Sergio Gonzalez-Miranda (Universidad Politécnica de Madrid, ES)

12:00

Lunch Break

13:30

Session 5A Identity Management

Chairman: Oddvar Risnes (Telenor R&I, NO)

Towards a Generic Identity Enabler for Telco Networks

Peter Weik (Fraunhofer FOKUS, DE)

Utilising Emerging Identity Management Frameworks in IMS

Ivar Jørstad (Ubisafe AS, NO)

IDEAS: Identity Driven Emerging Applications & Services

Rebecca Copeland (Huawei Technologies, UK)

IdM & AAA Reference Architecture for Telcos

Dietmar Krüger (T-Systems Enterprise Services GmbH, DE)

13:30

Session 5B User Interfaces

Chairman: Juan Carlos Luengo (Telefónica España, ES)

Rule Based Dynamic Adaptation of Mobile Services Based on Context

Claudio Venezia (Telecom Italia, IT)

A Unique Interface for Internet and Telecom Services: From Feeds Aggregator to Services Aggregator

Nassim Laga (Orange Labs & Institut Telecom, FR)

Universal User Interface for IMS clients

Do van Thanh (Telenor R&I / Norwegian University of Science and Technology, NO)

Navigating 2D Information Spaces on Mobile Phones

Morten Hjerde (mBricks as, NO)

15:00

Coffee Break

15:30

Session 6A Innovation in Services

Chairman: Bijan Jabbari (George Mason University, US)

On-Demand VPN Service between Home Networks for NGN Users

Tsuyoshi Abe (NTT, JP)

Call-Based PPA Model and System Architecture for a Telephone Company

Won-Seok Lee (KT, KR)

Mobile Converged Communication Services

Warren Montgomery (Personeta, US)

Network Architecture and Services Supporting Cross Media NFC Applications

Zhe Lou (Alcatel-Lucent Bell N.V., BE)

Simply web-n-walk - A Personalized Mobile 2.0 Service Enabler

Martin Kurze (Deutsche Telekom, DE)

A Session Linkage Enabler Based on SIP Authentication and its Service

Koji Murakami (NTT, JP)

15:30

Session 6B OSS/BSS

Chairman: Ulrich Reber (Nokia Siemens Networks, DE)

Business Process Management for Convergent Services Provisioning Using the SUPER Platform

Jacek Frankowski (Telekomunikacja Polska S.A., PL)

Self-Managed Next Generation Services: How Autonomic Principles Address the Challenge of NGS Management?

Imen Grida Ben Yahia (Institut Telecom, FR)

Legacy Integration and System Rationalisation with SOA

Pramath Jha (TATA Consultancy Services, UK)

Management of Networked Devices with Production-Quality Grid Services

Drissa Houatra (Orange Labs, FR)

Various Perspectives on Billing of IMS Services

Krzysztof Kwiatkowski (COMARCH, PL)

17:00

Session End

20:00

Gala Dinner Sponsored by Alcatel-Lucent

Thursday 23 October (Day 3)

08:30

Session 7A The Marriage of IMS and Web 2.0

Chairman: Noel Crespi (Institut Telecom, FR)

On Some Myths about Network Intelligence

Roberto Minerva (Telecom Italia, IT)

Third-Party Client Applications in an IMS World: an Open and Modular Mobile Architecture

Ryan Skraba (Alcatel-Lucent, FR)

Combining IMS and Web 2.0 - Assessing the Service Availability

Arlene Pearce (University of Oslo, NO)

08:30

Session 7B Measuring the User Experience

Chairman: Kevin Woollard (BT, UK)

KT-s Online Marketing System and Service Based on NGN

EunDong Lee (KT, KR)

Usability Evaluation of Mobile Services

Pedro Concejero (Telefónica Investigación y Desarrollo, ES)

Methodology of End to End Performances Analysis for IMS Services

Mustafa Sicak (Orange Labs, FR)

A Methodology for the Calculation of Usability Economics Applied to Voice Activated Services

Juan Carlos Luengo (Telefónica España, ES)

10:00

Coffee Break

10:30

Session 8A Open Models & Third Parties

Chairman: Kristofer Kimbler (Aepona, SE)

Open Models for Mobile Urban Services through a Virtual Platform Architecture

Kristof Michiels (Vrije Universiteit Brussel, BE)

Open Service Innovation in Telecom Industry – Case Study of Partnership Models Enabling 3rd Party Development of Novel Mobile Services

Per Nesse (Telenor R&I, NO)

Identifying the New Business and Revenue Models for Telcos in the 2.0 Enabled Market

Graham Francis (Aepona, UK)

Services, Enablers and Architectures: Definition of a Connected Web 2.0 / Telco Service Broker to Enable New Flexible Service Exposure Models

Niklas Blum (FOKUS, DE)

10:30

Session 8B Service Composition

Chairman: Osamu Mizuno (NTT, JP)

Service Composition with Real Time Services

Serge Moro (Hewlett-Packard, FR)

Towards Service Prosumer Eve

Gianni Canal (Telecom Italia, IT)

Agile IMS Service Composition - How to Quicker Respond to New Market Demand

Erik Kayser (Oracle, Inc., SE)

IMS, SDP and Web 2.0: Where Are the Services?

Marie-Paule Odini (Hewlett-Packard, FR)

12:00

Lunch Break

13:30

Session 9A Service Development Platforms

Chairman: Anders Lundqvist (Oracle Inc., SE)

A SIP Servlet Framework for Service Provisioning in Stand-Alone Mobile Ad Hoc Networks

Slimane Bah (University of Concordia, CA)

Service Delivery Platform Architecture for the Next-Generation Network

Hiroshi Sunaga (NTT, JP)

Session Management in Clustered Servlet Containers

Dimitri Tombroff (Alcatel-Lucent, FR)

13:30

Session 9B Session Continuity – Services on the Move

Chairman: Hendrik Berndt (DoCoMo Euro-Lab, DE)

IMS Multi Access - Single Core - Consistent Services Delivery

Rogier Noldus (Ericsson Telecommunications, NL)

From Network Layer Mobility to IMS Service Continuity

Bruno Tossou (Orange Labs, FR)

Service Continuity for IMS Converged Services

Do van Thuan (Linus AS, NO)

15:00

Closing Session

Chairman: Stefan Uellner, (T-Systems, DE)

15:30

Session End

Poster Presentations

Tuesday 21 to Wednesday 22 October 2008

Posters are available during breaks and at lunch.

Chairman: David Ludlam (Discovery Consultancy Association, UK)

Multimodal Interaction for Access to Media Content

Joachim Stegmann (T-Systems Enterprise Services, GmbH, DE)

FMC Balancing Authentication and Subscriber Management Demands for Converged Fixed Mobile Networks

Hailm Ben-Haila (Bridgewater Systems, CA)*

Three Points of View on How Web 2.0 Impacts Service Providers

Christophe Boulangé (IBM France, FR)*

Collaborative Telematics: Architecture and Value Creations

Kieko Lehmann (Deutsche Telekom Labs, DE)*

Business Opportunities with IMS Family Communities

Nicolay Bang (Linus, NO)

Moving from IPv4 to IPv6

Edward Lewis (NeuStar, US)

Leveraging VAS with Franchise Business Model

Vivek Rao (Alcatel-Lucent, IN)

A Distributed Service Framework for Future Internet and ICT-Telecommunications

Corrado Moiso or Antonio Manzalini (Telecom Italia Lab, IT)

A Novel Tool for Real Time Collaboration

Gert-Jan Rijckenberg (Ericsson Telecommunicatie, NL)*

Unified Notification System - The Power Unleashed

Subhankar Pal (Alcatel-Lucent, IN)

New Directions in the Development of Convergent IMS Services

Dr. Luis López Fernández (Universidad Rey Juan Carlos, ES)

Self-Organized Key Management Based on Trust Relationship List

Hideaki Kawabata (Tokai University, JP)

Loyalty Based Customer Interaction - Driving More Revenue from Your Existing Customer Base

Erik Kayser (Oracle, Inc., SE)

Managing Privacy in Operator Networks for NGN Services

Nabil Ajam (ENST, FR)

Web Session Controller: An Opportunity for IMS/Web Convergence

Frédérique Forestier (France Telecom, FR)

A Model-Driven Framework for Professional Service Designers and Developers

Mariano Belaunde (France Telecom, FR)

** denotes posters awaiting confirmation*

How to Register

Please visit the ICIN 2008 registration page at <https://www.icin.biz/register/signup.html> to register and obtain detailed information on registration and cancellation policies and payment procedures.

2008 Registration Fees

TUTORIAL FEES (19.6% VAT INCLUDED)

Attendee Type	Professional	Academic
Super Early Bird Up to 30 June	€355	€235
Early Bird 1 July - 30 Sept.	€475	€300
Regular 1 Oct. - 17 Oct.	€540	€355
On-Site 18 Oct up to Event	€660	€475

Tutorials will be held in half-day, parallel sessions on Monday 20 October 2008. The tutorial fee entitles participants to attend one tutorial per session. Sponsored seminars are at the same rates as regular tutorials.

The tutorial fee includes:

- Entry to tutorials of attendees choice
- Tutorial documentation
- List of participants who make their information available
- Lunch and refreshments at morning and afternoon breaks
- Free wireless internet access

Sponsored seminar fee includes:

- Entry to sponsored tutorials
- Sponsored tutorial documentation
- List of participants who make their information available
- Lunch and refreshments at either morning or afternoon break
- Free wireless internet access

Member registrants are members of cooperating scientific societies and of supporting organisations listed in the present document and on the website.

Academic registrants are employed by a university or have a valid student ID.

Attendees of the ICIN 2008 Conference can purchase a printed copy of the proceedings for €30 (incl. VAT). Non-attendees can purchase a printed copy for €350 (incl. VAT).

CONFERENCE FEES (19.6% VAT INCLUDED)

Attendee Type	Standard	Member	Academic	Student
Super Early Bird Up to 30 June	€930	€780	€300	€235
Early Bird 1 July - 30 Sept.	€1,190	€1,070	€595	€355
Regular 1 Oct. - 17 Oct.	€1,670	€1,550	€715	€420
On-Site 18 Oct up to Event	€1,790	€1,670	€830	€540

The three-day conference includes plenary and parallel sessions and will be held from Tuesday 21 to Thursday 23 October 2008.

The conference fee includes:

- Entrance to all plenary and technical sessions
- Access to the poster session
- Delegates' documentation including conference proceedings on flash drive
- List of participants who make their information available
- Three seated lunches and refreshments at morning and afternoon breaks
- Free wireless internet access
- Gala dinner including transport

Conference Headquarters and Accommodation

The ICIN 2008 conference will be located at the Sofitel-Pullman Bordeaux Lac Hotel at Avenue Jean-Gabriel Domergue, 33300 Bordeaux Lac, France. The Sofitel-Pullman is only three hours from Paris by TGV. It is just 15 minutes from downtown Bordeaux, now classified as a UNESCO World Heritage site.

For more information about Bordeaux and its surroundings, visit our Travel to Bordeaux Web page on <http://www.icin.biz/register/travel.html>.

The Sofitel-Pullman

A block of rooms is being held for ICIN 2008 attendees at a discounted rate of €160.00 single / €160.00 double occupancy. Breakfast is €15.00 per person and internet service in the room is €50.00 for five days (daily rates are available). City tax of €1.45 applies.

These rates will be honoured three days before and three days after the official meeting dates, based on availability. To receive the discounted rate, you must make your reservation prior to 5 October and mention that you are attending ICIN 2008 or use the promotion code ICIN

when registering online. Reservation requests received after 5 October will be accepted on a space and rate availability basis. Please register early if you intend to stay at the Conference Headquarters Hotel (Sofitel-Pullman).

You can cancel your reservation at the Sofitel without penalty until 7 days prior to check-in / arrival.

We urge you to make your hotel booking early.

To make your reservation, please contact the hotel prior to 5 October:

- Register Online: http://www.accorhotels.com/gb/reservation/info_complementaire.shtml (promotion code: ICIN)
- Call for Reservations +33 (0) 5 56 69 66 66 (mention the ICIN Conference for the room block)
- Email the Sofitel-Pullman: h0669@accor.com

Attendees must refer to ICIN 2008 or online promotion code ICIN in order to receive the contracted room rate.

Additional Hotels

We've made arrangements with other hotels (with various rates) located close to the conference. For additional information about these accommodations in Bordeaux, please visit the Registration / Hotel Accommodation section of our web site: <http://www.icin.biz/register/hotels.html>

NeuStar Secretariat Services (NSS) is pleased to announce it is now the organiser of ICIN, taking over from Adera, which has run ICIN since its inception in 1989. NSS is a small, but independent, group within NeuStar responsible for supporting industry events and organisations from around the world and is staffed with association management professionals with more than 50 collective years of experience.
